Telling Your Story App

The Telling Your Story App provides a way for technologically-connected advocates to reach their elected officials. This app, sponsored by the Minnesota Governor's Council on Developmental Disabilities, can be downloaded to your smart phone or tablet, and it enables you to draft and send your personal story to your elected officials.

The Arc Minnesota website has a page on the app:

- Go to <https://arcminnesota.org>
- Go to the "Public Policy" tab
- Choose "Build Your Skills"
- Click on the link for the "Telling Your Story" app

After you complete your story and send it to legislators, send it to Mike Gude at mikegude@arcminnesota.org. Whatever your public policy concern, your elected officials need to hear from you - and we want to hear your concerns, too.

Published January 2018

The Arc Minnesota's public policy advocacy is supported by the generosity of our organizational partners. (Turn sheet over for a list of those partners.)

For people with intellectual and developmental disabilities
